Cooperation for development

GIEP

Green Innovation and Entrepreneurship Programme

Engagement of 5 universities to render the sustainable development and green economy the new entrepreneurial frontier for Egypt, a country facing difficult environmental challenges in recent years, such as the improvement of air and water quality, waste management, coastal pollution, desertification and improving the quality of life of its population.

Referent: EMANUELA COLOMBO, LORENZO MAT-
TAROLO

E-mail: emanuela.colombo@polimi.it
