CampUS

Polisocial Award

## CampUS

Strengthening the relationship between spaces and capabilities present inside Campuses and local contexts in which they are situated. The research project aims at activate spaces inside the campus as incubators of social practices in which to experiment and prototype social actions using a co-design approach. The purpose is to develop innovative services for two categories of weak users: NEETs (Not in Education, Employment or Training) and Over75 of the District 9 of Milan.
