

## SOSpesa

Neighborhood Networks  
for the Recovery, Distribution  
and Upgrading of Food Surplus

- FOOD WASTE RECOVERY
- DISADVANTAGED PEOPLE
- SUPPORT NETWORKS

### ABSTRACT

The project aims to create a local solidarity network in charge of mapping food flows, recovering and transforming food surplus and, finally, offering it to disadvantaged people at controlled prices.

The network will be based in the NoLo neighborhood in Milan, already involved by a transformation process promoted by local organizations and small-scale retailers.
