

METHEXIS

Mathematics, narratives
and generative spaces
for extremely fragile contexts

- prison
- social life
- generative modeling

PROPONENTS

scientific coordinator:

Domenico Brunetto - DMAT

project manager:

Andrea Di Franco - DASTU

DMAT: Francesco Nappo, Paolo Lella,
Roberto Notari, Marco Caroccia

DEIB: Carlo Piccardi

DASTU: Davide Del Curto,
Gianfranco Orsenigo, Maria Elena Ponno,

DESIGN: Francesca Piredda,
Giovanni Maria Conti, Mariana Ciancia,
Martina Motta, Virginia Tassinari,
Chiara Ligi

THE PROJECT

The young adult section of the San Vittore prison is an unstable and ever-changing reality, due to the rapid turnover of inmates and the different requests for change from volunteer associations.

METHEXIS aims to promote greater participation of prisoners and operators in forms of social life and mutual support, acting on people and structures and adopting a 'research through design' approach. The main working method adopted is a mapping of nodes, links and interactions based on mathematical models, intended as an innovative design tool.

PARTNERS

Casa Circondariale San Vittore – "F. Di Cataldo" (detention center);
Trasgressione.net Onlus; Fondazione ERIS; A&I Società Cooperativa
Accoglienza e Integrazione; YouSport Onlus; Legal Clinic Università Bocconi e Bicocca

CONTEXT

Off Campus San Vittore
Young adult section of the prison

START DATE

October 2023
